RE: Saad site, Nashville 19-533

I called Beth Davis, EPA atty. for Saad Nashville, concerning the status of the access order for the site. She stated that the order is still in the Dept. of Justice under review. It should take at least 60 days for anything to be done with it. I mentioned the recent increase in interest with the site by consultants and businesses. She said that we could forward anyone to her for an explanation of the process that the site is undergoing.
